

Pediatric & Neonatal Transport Team at John Muir Health

Michelle Fernandez RN

Stephanie Lucas RN

Danielle Rotter RN

Robert Gales RCP

Donna Greenslade RCP

Tina Le RCP

Kirby Jacobs RN
Program Manager

Our Transport Team's Advanced Skills Include:

- Invasive and non-invasive airway management
- Needle thoracentesis and arterial puncture
- Management of difficult vascular access
 - Intraosseous line
 - Neonatal umbilical catheter (UAC and UVC)
 - Ultrasound-guided peripheral IV line placement

Improved Outcomes With Pediatric Transport

"Transport of critically ill children to a pediatric tertiary care center can be conducted more safely with a pediatric critical care specialized team than with teams not specifically trained in pediatric critical care and pediatric transport medicine." (Orr et al., 2009).
